Book a car on Rydeo

A step-by-step guide to creating your Guest account and booking your first car on rydeo.net. It takes about 10 minutes.

1 Register

Create your Guest account, then confirm your email and phone with the one-time codes (OTP) we send you.

2 Find a car

Log in, open Rent a Car and use the filters to narrow the list. Click a car you like.

3 Book

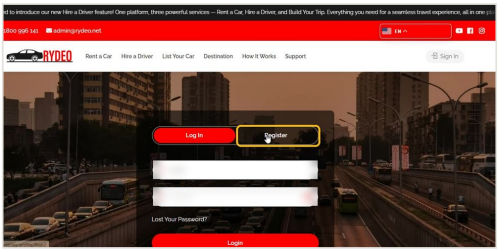

Check the details and price per day, choose your dates in the Booking box and click Book Now.

Before you start

Have these ready: an email address you can open right now and a mobile phone that can receive an SMS. You will also choose a username and a password.

Part 1. Register your Guest account

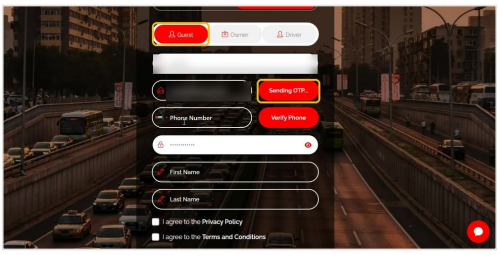

1

Open the sign-in box and choose Register

Go to **rydeo.net** and click **Sign In** at the top right. In the box that opens you will see two tabs, **Log In** and **Register**. Click **Register**.

2

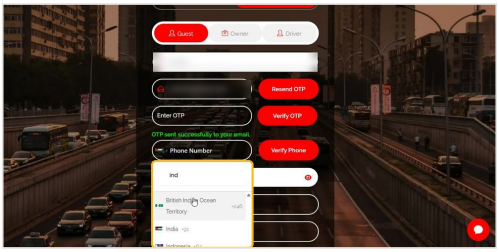

Choose Guest and enter your email

Select **Guest** (the other choices are Owner and Driver). Type a **username** and your **email address**, then click **Verify Email**.

> **Tip:** Choose Guest to rent cars. Owner accounts are for people who list their own cars.

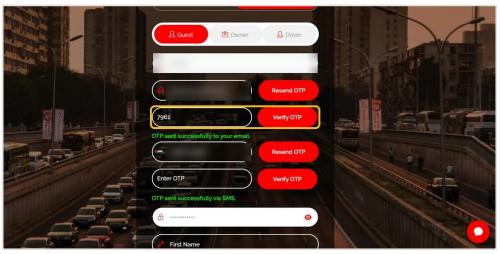

3

Add your phone number

Click the **Phone Number** box and pick your country from the list (you can type the country name to search). Enter your mobile number and click **Verify Phone**.

4

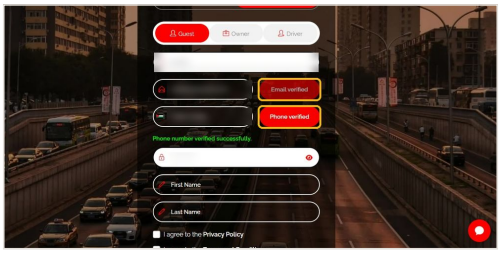

Enter the codes

A 4-digit code is sent to your email. Type it in the **Enter OTP** box and click **Verify OTP**. Do the same with the code that arrives by SMS.

> **Tip:** No email? Check your spam folder, then click Resend OTP.

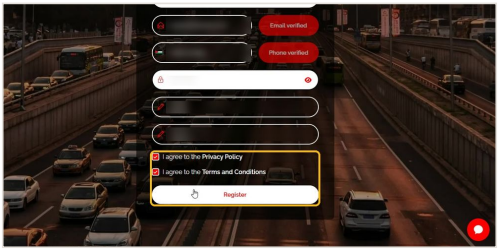

5

Check that both are verified

When the buttons change to **Email verified** and **Phone verified**, your details are confirmed and you can carry on.

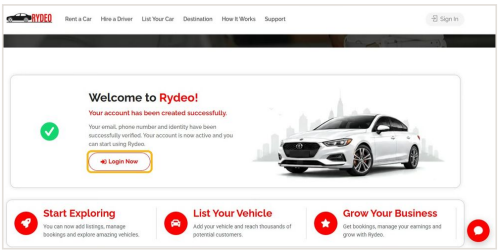

6

Set a password, add your name and register

Choose a **Password**, then fill in **First Name** and **Last Name**. Tick **I agree to the Privacy Policy** and **I agree to the Terms and Conditions**, then click **Register**.

7

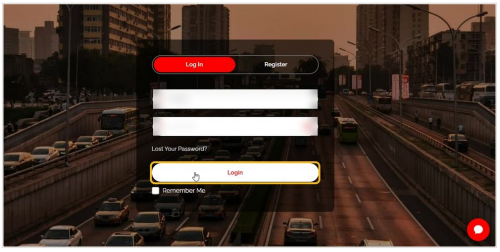

Welcome to Rydeo!

You will see a page saying your account has been created. Click **Login Now** to continue.

Part 2. Log in and find a car

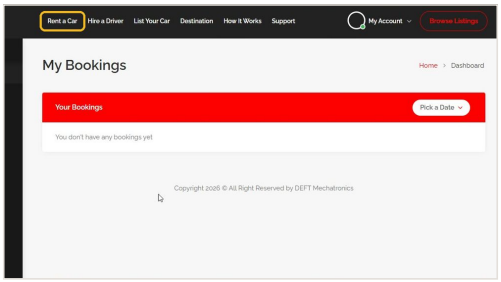

8

Log in

On the sign-in box, stay on the **Log In** tab. Type your **username** and **password**, then click **Login**.

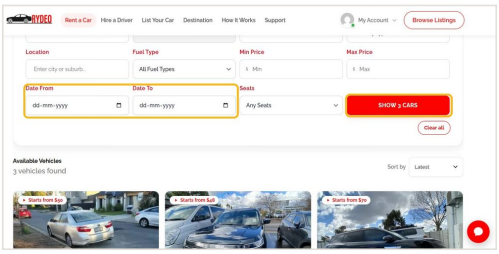

9

Your dashboard

After logging in you land on your dashboard. Your bookings will appear under **My Bookings**. Click **Rent a Car** in the top menu to browse cars.

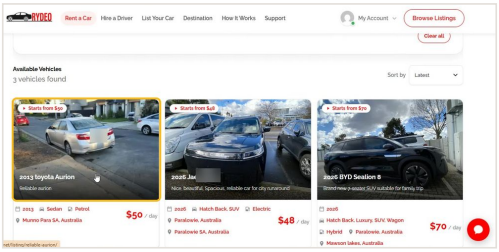

10

Search for a car

Use the filters to narrow the list: **Location**, **Fuel Type**, **Min Price**, **Max Price**, **Date From**, **Date To** and **Seats**. Then click **Show Cars**.

11

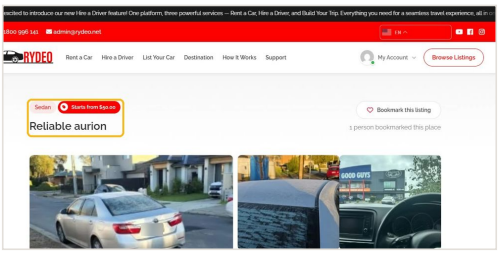

Pick a car

Each card shows the year, body type, fuel, location and the **price per day**. Click the car you like to open its page.

Part 3. Choose your dates and book

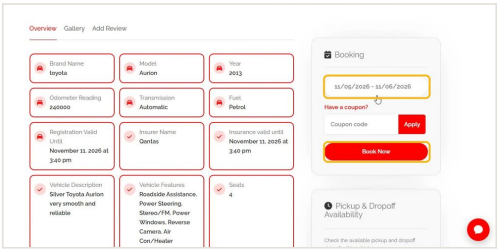

12

Check the car details

Look through the photos and the description. The **price per day** is shown at the top, next to the car type.

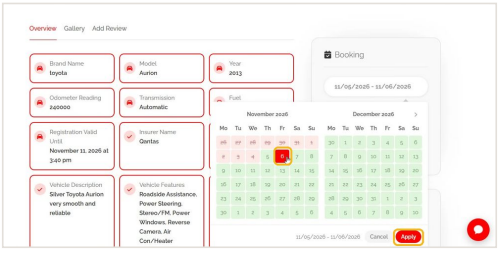

13

Find the Booking box

On the right of the page is the **Booking** box. It shows your dates. If you have a coupon, type it in and click **Apply**. Click **Book Now** when you are ready.

14

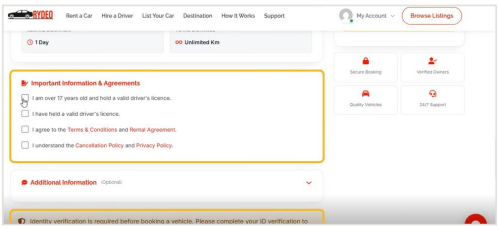

Choose your dates

Click the dates to open the calendar. **Green** dates are available and **red crossed-out** dates are taken. Pick your first and last day, then click **Apply**.

> **Tip:** Dates that are crossed out cannot be booked, so choose from the green ones.

15

Agree to the terms and confirm

On the booking page, tick all four boxes under **Important Information & Agreements**: you are over 17 and hold a valid driver's licence, you have held your licence, you agree to the **Terms & Conditions** and **Rental Agreement**, and you understand the **Cancellation Policy** and **Privacy Policy**. **Additional Information** is optional.

> **Tip:** Identity verification is required before booking a vehicle. If you see this notice, complete your ID verification first.

Quick checklist

- [ ] Guest selected on the Register tab
- [ ] Email button shows **Email verified**
- [ ] Phone button shows **Phone verified**
- [ ] Privacy Policy and Terms ticked, then **Register** clicked
- [ ] Logged in, a car chosen, dates picked and **Book Now** clicked
- [ ] All 4 agreement boxes ticked on the booking page
- [ ] ID verification completed if the page asks for it
