Become a Rydeo owner

A step-by-step guide to creating your owner account and adding your first car listing on rydeo.net. It takes about 10 minutes.

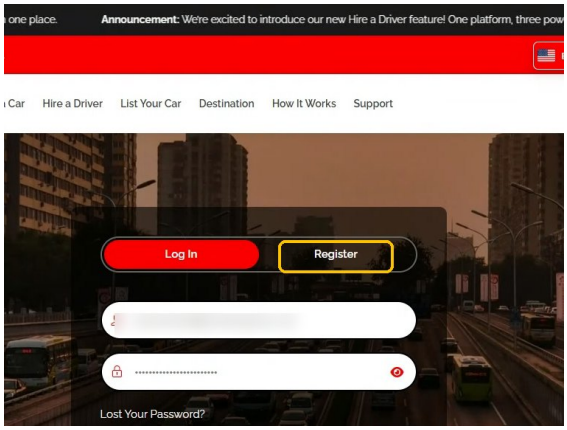

1. **Register**
   Create an Owner account with a username, email, phone and password.
2. **Verify**
   Confirm your email and your phone with the one-time codes (OTP) we send you.
3. **List your car**
   Log in, click Add Listing and complete the 5-step form.

Before you start

Have these ready: an email address you can open right now, a mobile phone that can receive an SMS, and (for the listing) your vehicle details, registration number and photos.

Part 1. Register your Owner account

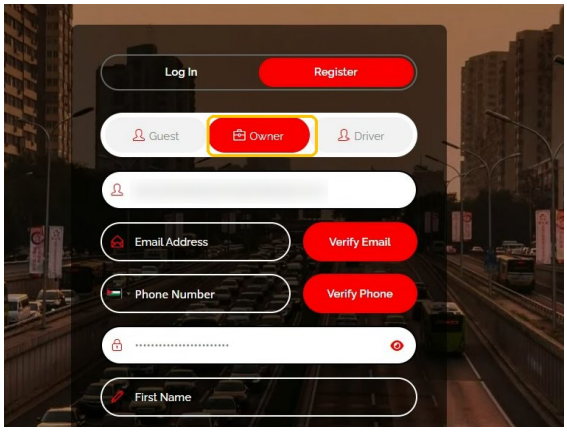

1

Open the sign-in box and choose Register

Go to **rydeo.net** and click **Sign In** at the top right. In the box that opens you will see two tabs, **Log In** and **Register**. Click **Register**.

2

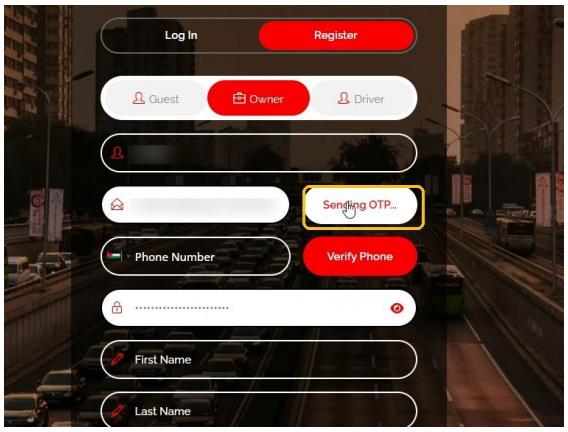

Choose Owner and pick a username

At the top of the form select **Owner** (the other choices are Guest and Driver). Then type a **Username**.

> **Tip:** Choose Owner, not Guest. Only Owner accounts can add car listings.

3

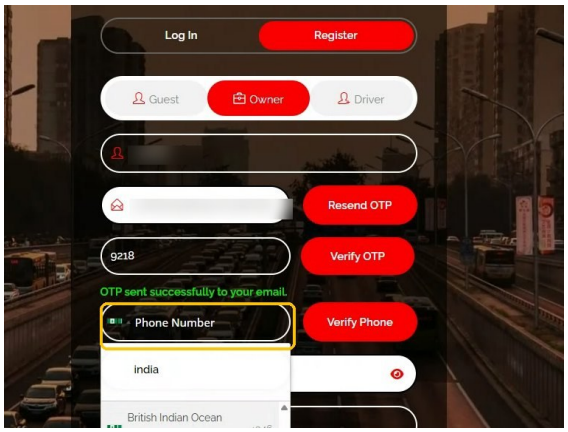

Verify your email

Type your email address and click **Verify Email**. A 4-digit code is emailed to you. Type it into the **Enter OTP** box and click **Verify OTP**. When it works the button changes to **Email verified**.

> **Tip:** No email? Check your spam folder, then click **Resend OTP**.

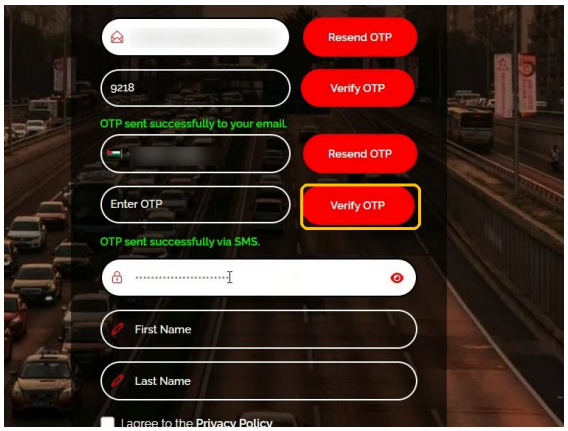

4

Add your phone number

Click the **Phone Number** field and pick your country from the list (you can type the country name to search). Then enter your number and click **Verify Phone**.

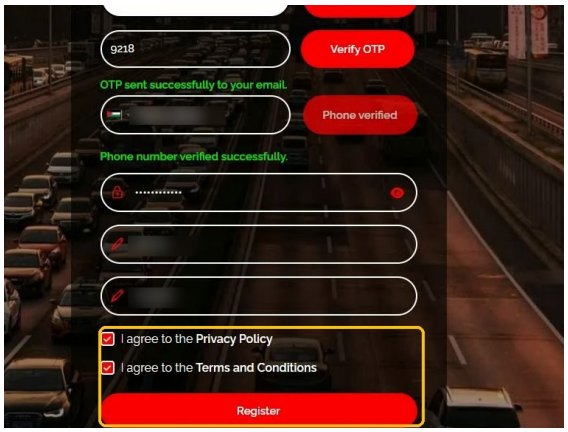

5

Enter the SMS code

A code is sent to your phone by SMS. Enter it in the **Enter OTP** box and click **Verify OTP**. The button turns to **Phone verified** and a green confirmation appears.

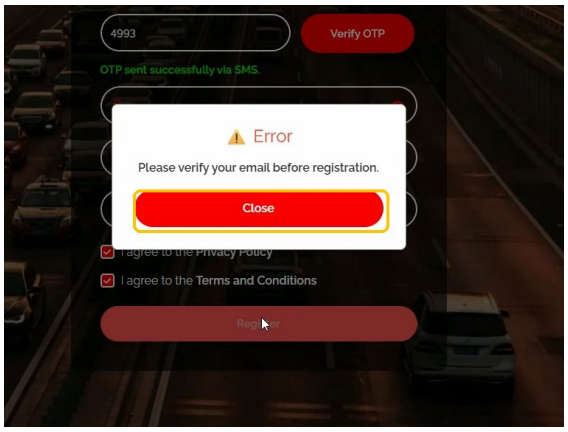

6

Set a password, add your name and register

Choose a **Password**, then fill in **First Name** and **Last Name**. Tick **I agree to the Privacy Policy** and **I agree to the Terms and Conditions**, then click **Register**.

7

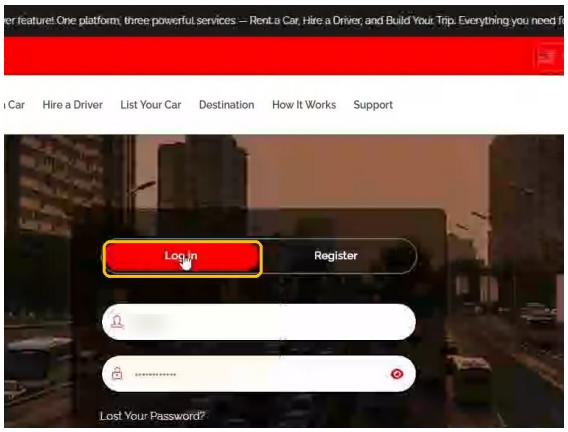

If you see the Error message

If the box says **Please verify your email before registration**, click **Close**, complete the email verification from Step 3, then click Register again.

> **Tip:** Both email and phone must show as verified before Register will work.

8

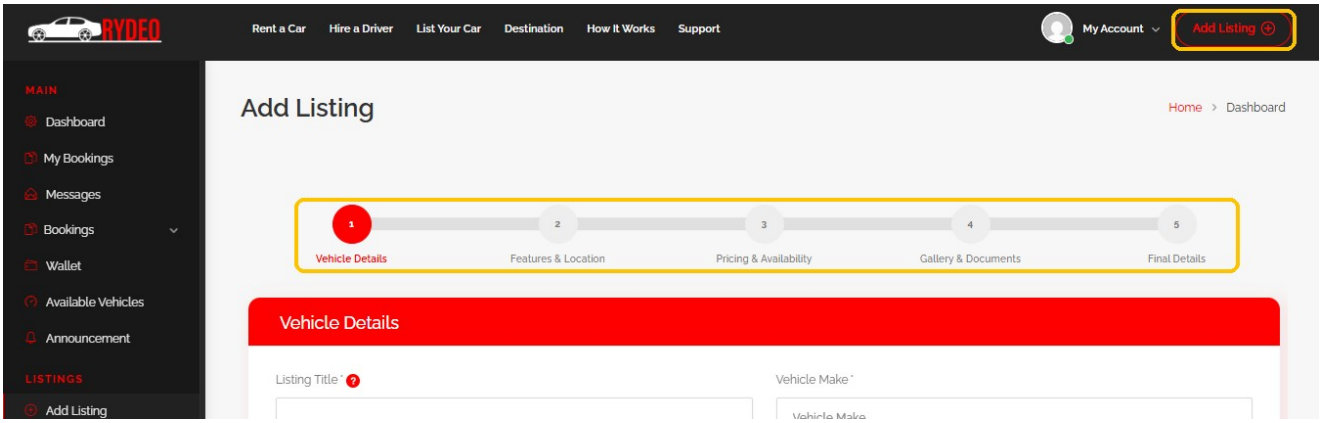

Log in

After registering you will see a success page. Click **Sign In**, stay on the **Log In** tab, enter your username and password and click **Log In**.

Part 2. Add your car listing

Once you are logged in, click the red **Add Listing** button in the top menu (marked 1 below). The listing form opens with five stages shown along the top (marked 2). Complete each stage and move to the next.

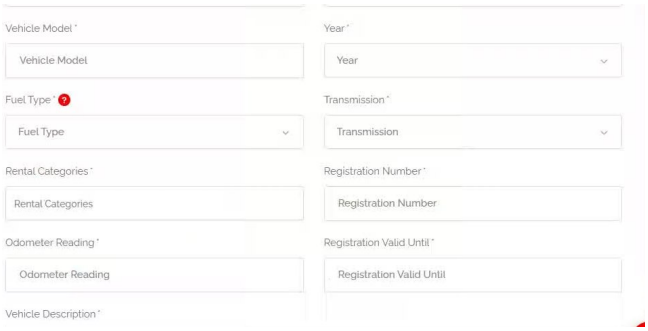

Tip: if you see the message "We found unsaved changes from a previous visit to this form", click **Restore my data** to carry on where you stopped, or **Discard** to start fresh.

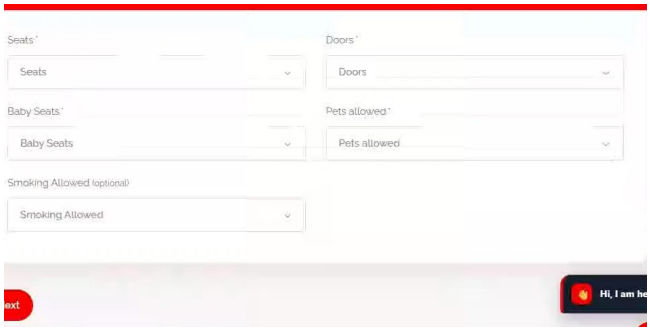

Stage	Name	What you provide
1	**Vehicle Details**	Listing title, vehicle make, model and year, fuel type, transmission, rental category, registration number, odometer reading, registration valid-until date and a description.
2	**Features & Location**	The features of your car and where it can be picked up.

3	**Pricing & Availability**	Your price and the dates your car is available.
4	**Gallery & Documents**	Photos of the car and any required documents.
5	**Final Details**	Review and submit your listing.

Stage 1 in detail: Vehicle Details

Fill in the vehicle fields (left), then scroll down to **Vehicle Specifications** (right): seats, doors, baby seats, pets allowed and smoking allowed. Fields marked with * are required. Click **Next** at the bottom to move to stage 2.

Quick checklist

[ ] Registered as **Owner** (not Guest)

[ ] Email shows **Email verified**

[ ] Phone shows **Phone verified**

[ ] Privacy Policy and Terms ticked, then Register

[ ] Logged in, then **Add Listing** and all 5 stages completed
